Nairobi, Kenya

PROFESSIONAL SUMMARY

Full-Stack Software Developer with a Bachelor's degree in Statistics and Computer Science and a passion for building modern, scalable web applications. Experienced in developing full-stack solutions using React, Node.js, Express, PostgreSQL, and Prisma through hands-on software engineering projects.

Strong understanding of RESTful API development, authentication and authorization, relational database design, responsive frontend development, and version control with Git. I enjoy solving real-world problems, writing clean and maintainable code, and continuously expanding my software engineering knowledge through practical projects.

PROFESSIONAL EXPERIENCE

The National Treasury and Planning – Kenya

ICT & Statistics Intern – Monitoring and Evaluation Directorate

Jan 2024 – April 2024

- Provided technical support for data systems, document digitization, and ICT infrastructure.
